JASPAL SINGH

## UNIVERSITY OF NAIROBI TALK ON WEDNESDAY 14th DECEMBER 2022 AT THE ADD BUILDING

### JASPAL SINGH – PROFILE SUMMARY

Jaspal brings 25 years of invaluable experience gained in Architectural practice, professional organizations and collaborations, locally and internationally. He is the founder and director at Sketch Studio - a multi award winning architectural firm based in Nairobi, Kenya that strives to create new experiences through spatial design and creative concepts. Since its establishment, the company continues to be accomplished in the successful and unique delivery of commercial, residential, retail and housing projects of varying scales and styles in the built industry. His key strengths and that of his firm lie in the delivery of projects that are creative, practical, respond to the client's brief, have attention to detail, and are executed with excellence within time and within budget.

Jaspal has done projects in Kenya, Uganda, Tanzania, Rwanda, South Sudan, Botswana, Zambia, Afghanistan, United Kingdom and the US.

# About Us

Sketch Studio was established in 2007. The young practice has a portfolio of projects in Kenya, Uganda, Tanzania, Rwanda and South Sudan including a number of innovative commercial interiors, residential houses, residential interiors & commercial projects.

The Practice's varied portfolio of work is underpinned by a consistent commitment to expressive solutions and excellence in design, which has put us at the forefront of a new wave of high profile young practices in Kenya. We are one of the country's foremost design oriented social architects working on unusual, unique and innovative projects. This is a culmination of a number of years experience with some of the leading practices in the country.

We provide complete planning, Architectural and Interior design, documentation, project management and field supervision services. In addition, our firm employs an interdisciplinary approach to our projects and often collaborates with experts in other fields such as Environmental Design and Landscape Design. A thorough understanding of the clients needs are defined, understood then conceptualised into a sketch!

The sketch is the physical manifestation in line form of the thoughts, ideas and interpretation of the clients needs... the first glimpse of the formation.

Sketch Studio is committed to close client consultation and to stringent management procedures so that our buildings are completed within budget, of a high standard and time and according to programme.
